WATER COLORS.

NOTE.—The following Water Colors by prominent American Artists formed part of a Collection of 185 examples which was originally made by Mr. Gustav H. Buek, of New York.

The pictures were chosen not alone because of the importance of the artists represented, but in order to preserve a line of American Water Colors from the early period of the Hudson River School down to the present day.

The complete Collection was exhibited in the Art Museums of Brooklyn, Chicago, St. Louis, Toledo and other cities, where thousands of visitors were afforded an opportunity to study and enjoy these beautiful specimens.

The remaining examples which are now offered are very interesting in many respects. In a majority of cases it would be impossible to duplicate them. Some are by men who made few Water Colors, and some are single examples in this medium by artists celebrated as painters in oil.
